List of Composites: The firm's list of composite descriptions is available upon request.

Composite Creation: The creation and inception of this composite is January 1, 2003.

Formal Description of the Micro Cap Growth Composite: The NCG Micro Capitalization Growth Equity Composite contains all fee paying portfolios investing primarily in the equity securities of smaller U.S. companies that the portfolio manager believes have substantial potential for high long-term growth. The portfolio manager seeks to identify the fastest growing and highest quality companies for investment. Investment results are measured versus the Russell Microcap Growth Index and the Russell 2000 Growth Index. Prior to October 1, 2018 the Micro cap Growth composite had been referred to as Poling Composite, MicroCap Composite and SMicroCap Composite, and Small Cap Ultra Composite. Beginning January 1, 2003, there was no minimum account size for the composite, Beginning October 1, 2010 the minimum account size for the composite is \$10,000.

Currency: Valuations are computed and performance reported in United States dollar (\$).

Benchmark: The Russell Microcap Growth Index measures the performance of the microcap growth segment of the U.S. equity market. It includes Russell Microcap companies that are considered more growth oriented relative to the overall market as defined by Russell's leading style methodology. The Russell Microcap Growth Index is constructed to provide a comprehensive and unbiased barometer for the microcap growth segment of the market. The Index is completely reconstituted annually to ensure larger stocks do not distort performance and characteristics of the microcap opportunity set. The Russell Microcap Growth Index is not an actual investment and does not reflect the deduction of transaction charges and other expenses that your account must bear. The Russell 2000® Growth Index measures the performance of the small-cap growth segment of the US equity universe. It includes those Russell 2000® companies with higher price-to-value ratios and higher forecasted growth values. The Russell 2000® Growth Index is constructed to provide a comprehensive and unbiased barometer for the small-cap growth segment. The index is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true small-cap opportunity set and that the represented companies continue to reflect growth characteristics. The Russell 2000 Growth Index is not an actual investment and does not reflect the deduction of transaction charges and other expenses that your account must bear. Additional information regarding policies for calculating and reporting returns is available upon request

Fee Schedule: Next Century Growth Investors standard investment advisory fee is 1.00% on all asset under management. The net returns reflect the deduction of actual advisory fees. Prior to April 2004, monthly net returns reflect the deduction of a model advisory fee of 1.00%. This fee is the maximum annual advisory fee based upon the accompanying fee schedule in effect during each respective performance period for each portfolio in the composite, for net composite returns. The annual advisory fee is divided by 12 to determine the monthly advisory fee.

Measure of Dispersion: The composites dispersion is measured using an asset weighted standard deviation of returns gross of fees for portfolios that were in the composite for the entire year. The composite 3-year standard deviation is calculated using gross returns.

Significant Cash Flows: Beginning Jan 1, 2018, composite policy requires the temporary removal of any portfolio incurring a client initiated significant cash inflow or outflow of at least 35% of portfolio assets. The temporary removal of such an account occurs at the beginning of the month in which the significant cash flow occurs and the account re-enters the composite at the beginning of the month after the cash flow.

Additional Information: Policies for valuing investments, calculating performance, and preparing GIPS reports are available upon request. Past performance is not an indicator of future performance and the value of your account may increase or decrease over time. The performance information provided above includes the reinvestment of all dividends and other earnings. Additional information about NCG is contained in the firm's Form ADV. NCG will supply a copy of its Form ADV to any prospective client upon request. ** for periods with less than 3 years of composite performance, no 3-year ex-post standard deviation measurement is available.
