Compliance Statement: Next Century Growth Investors, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Next Century Growth Investors, LLC has been independently verified for the periods 1999-2025. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Definition of the Firm: Next Century Growth Investors, LLC is a registered investment adviser with the U.S. Securities and Exchange Commission under the Investment Advisers Act of 1940. The Firm offers investment services to individuals and institutional investors. Next Century Growth is located in Minneapolis, Minnesota, has one office and no subsidiaries.

GIPS Registered Trademark: GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

List of Composites: The firm's list of composite descriptions is available upon request.

Composite Creation: The creation and inception of this composite is January 1, 1999.

Formal Description of the Small Cap Growth Composite: The Next Century Growth Investors Small Capitalization Equity Composite contains all fee-paying portfolios investing primarily in the equity securities of smaller U.S. companies that the portfolio manager believes have substantial potential for high long-term growth. The portfolio manager seeks to identify the fastest growing and highest quality companies for investment. Investment results are measured versus the Russell 2000® Growth Index. Beginning January 1, 1999, there was no minimum account size for the composite. Beginning October 1, 2010, the minimum account size for the composite is \$10,000.

Currency: Valuations are computed, and performance reported in United States dollar (\$).

Benchmark: The benchmark for the Small Capitalization Equity Composite is the Russell 2000® Growth Index. The Russell 2000® Growth Index measures the performance of the small-cap growth segment of the US equity universe. It includes those Russell 2000® companies with higher price-to-value ratios and higher forecasted growth values. The Russell 2000® Growth Index is constructed to provide a comprehensive and unbiased barometer for the small-cap growth segment. The index is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true small-cap opportunity set and that the represented companies continue to reflect growth characteristics. The Russell 2000® Growth Index is not an actual investment and does not reflect the deduction of transaction charges and other expenses that your account must bear.

Fee Schedule: Next Century Growth Investors standard investment advisory fee is 1.00% first \$50M, .95% \$50-100M, .75% thereafter. The net returns reflect the deduction of actual advisory fees, including performance fees, if applicable. From January 1, 2000, through March 31, 2004, monthly net returns reflect the deduction of a model advisory fee of 1.75%. From inception through December 31, 1999, monthly net returns reflect the deduction of a model advisory fee of 1.00%. This fee is the maximum annual advisory fee based upon the accompanying fee schedule in effect during each respective performance period for each portfolio in the composite, for net composite returns. The annual advisory fee is divided by 12 to determine the monthly advisory fee.

Measure of Dispersion: The composites dispersion is measured using an asset weighted standard deviation of returns gross of fees for portfolios that were in the composite for the entire year. The composite 3-year standard deviation is calculated using gross returns.

Significant Cash Flows: Beginning Jan 1, 2018, composite policy requires the temporary removal of any portfolio incurring a client initiated significant cash inflow or outflow of at least 35% of portfolio assets. The temporary removal of such an account occurs at the beginning of the month in which the significant cash flow occurs, and the account re-enters the composite at the beginning of the month after the cash flow.

Additional Information: Policies for valuing investments, calculating performance, and preparing GIPS reports are available upon request. Past performance is not an indicator of future performance, and the value of your account may increase or decrease over time. The performance information provided above includes the reinvestment of all dividends and other earnings. Additional information about NCG is contained in the firm's Form ADV. NCG will supply a copy of its Form ADV to any prospective client upon request. ** for periods with less than 3 years of composite performance, no 3-year ex-post standard deviation measurement is available. 1999 Standard deviation - internal dispersion measure is not applicable because there are five or fewer portfolios in the composite for the full year.
