

# SMID CAP GROWTH

As of December 31, 2025

## Strategy Overview

We invest in fast growing and high quality small and mid cap companies that can become much larger companies over our holdings period. Key attributes we look for in our holdings:

- Organic revenue growth faster than the benchmark index
- Companies that are addressing growing, large markets
- Differentiated product offering and strong competitive position
- Generally profitable and expanding margins even as they grow rapidly
- Proven management team that can articulate a clear growth strategy

By investing in companies that have the potential to grow faster and more consistently than those in the benchmark we believe our portfolio will, over the long-term, perform better than the unmanaged index.
